### KESRI RAVA & SUJI / WHEAT SEMOLINA COARSE & FINE

سميد

Backed by advanced processing technology and dexterous team of expert professionals, we are able to offer Wheat Semolina. Highly reckoned for nutritional value and fiber. Wheat Semolina is widely preferred for breakfast cereals and puddings. Wheat Semolina is basic raw material for Pasta manufacturing companies.

### SAMBHA WHEAT & SAMBHA RAVA

Samba wheat is one of the most healthiest grain found in the Cereal family. This type of wheat is best for diabetes and people with high sugar level. It is helpful in reducing cholesterol (0% cholesterol) and also good for bones (high iron and protein content).

WHEAT PRODUCTS

# WHEAT

We are one of the market leaders for manufacturing and supplying Wheat. The wheat offered by us is of fine quality. It is manufactured under hygienic conditions and in a clean environment.

## MP SHARBATI TUKDI WHEAT

Wheat Sharbati is a variety of wheat which is soft in its built. It is having no cholesterol, high in dietary fiber. And it also contains diversity of minerals vitamins and fats. Wheat sharbati is a soft type of wheat. It is procured from quality source, and then processed under good hygienic conditions to maintain its nutritional values. This makes us the premium quality supplier of wheat

## LOKWAN WHEAT

With the strong support of our adept team of professionals, we are offering high quality Lokwan Wheat that is 100% food grade and without any impurities. Processed as per the food industry standards, this is extremely acknowledged for high nutritional value, purity, longer shelf life and safe consumption.

## BHALIYA WHEAT

Bhaliya Wheat is a long grain wheat variety which is very rich in protein. This wheat is high in Gluten content. Such nutritional wheat is processed under high hygienic conditions and under the supervision of our production manager. Recently this Bhaliya Wheat has received Geographical Indication (GI) tag.

# RICE PRODUCTS

## RICE GRITS

We deal in rice grit which is processed from high quality rice. While processing utter care is taken to retain the nutritional values. The particle size in the below mentioned products can be catered to according to client's requirements. Supplied majorly to extruded snacks manufactures and 3d papad manufacturers.

## IDLI RAVA

It is primarily used in making of south indian dishes like idli, dosa, upma, etc. Also in making of ready-to-eat products and instant mixes. The rice grit produced by us is of totally cleaned and 100% colour sorted boil rice and we make sure of consistent particle size (granulation) which helps in proper Idlis everytime.

## RICE FLOUR

Rice flour is made using finely grinded polished rice. It is made under total hygienic conditions in our state of art production unit. The rice used in producing rice flour is of best best quality. And one can find same kind of quality round the year.

# RICE

## 100% BROKEN RICE

We are one of the reputed processors and suppliers of a spectacular range of Broken Rice, which comes in various packaging pertaining to the size of the grain. We offer best quality boiled broken rice processed in a complete hygienic manner and is increasingly in demand by our clients in the market.

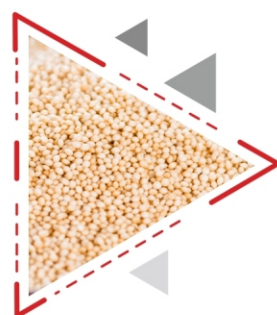

## NON-BASMATI RICE

We are one of the prominent manufacturers and suppliers engaged in offering Non Basmati rice. We have been manufacturing Non Basmati rice for the past 20 years and have gained a respectable position in the market for supplying premium quality rice.

### Types of rice manufactured:

Jeerasar Rice, Lachkari Rice, Masuri Rice, Parimal Rice, Long Grain Rice.

Amaranth seed is high in protein (15-18 percent), two essential amino acids that are not commonly found in grains. It mainly has religious beliefs and is used in fasting. The grain is used to make parathas, poori's, pakoras, cutlets, chikki, etc. Amaranth seed processed in our unit is cleaned and colour sorted in Japanese Colour Sorter machine which ensures no foreign material.

Green Millet Seeds, that we offer, is fit for human consumption. Green Millet offered by us would be machine clean and colour sorted, which assures superior quality. Also the quality can be can be available according to the buyer's requirement.

We are one of the leading millers and suppliers of a premium quality Chick Peas. Chickpeas are a rich source of proteins, carbohydrates, dietary fiber and many essential minerals and vitamins. The Desi Chickpeas produced are split in half to make Chana Dahl, this split form are ground into flour called Besan.

## SOME PACKAGING WE OFFER

## JAGDISH COLD STORAGE

We, the group of Jagdish Rice Mill with the commitment to serve you better and of consistently good quality have built Jagdish Cold Storage. The capacity of the cold storage is quite large which will help us to cater to your needs round the year. We do not use harmful and outdated technology such as ammonia gas for refrigeration but have opted for environmental friendly and ultra modern technology as "Freon" gas technique for refrigeration. The cold storage is solely owned by Jagdish Rice Mill for storing their best quality products.
